Reasons for non-compliance

The Structural Funds information service was developed years before the EU Accessibility Directive and the national legislation implementing it came into force, which is why accessibility requirements have not been taken adequately into account in system development.

According to the Act on the Provision of Digital Services (306/2019), the transition period for the Structural Funds information service will end on 23 September 2020. The Structural Funds programming period for 2014-2020 will end on 31 December 2020. Development of the Structural Funds information service will also end at this time. Correcting the shortcomings in accessibility would place an unreasonable burden on the service provider, considering the life cycle of the service.
